

PLACES, PATHS & STORIES. RESTORATION!

Artist encounter 13-15 May 2022, in Le Locle (CH) and online

Special Focus “Restoration”: restore (en) = restaurer (fr) = wiederherstellen, stärken, erneuern (de)
= restaurar (port)

Artists, art lovers as well as curious and adventurous souls will meet on the weekend from 13-15 May 2022 to explore connection, share contents and experiment with new works. The focus is on “Restoration” as our overhead topic, which means it will be all about renovating, strengthening, restoring and renewal - of our own system and the environment, of which we are part.

We will research and experiment with what nourishes us on different levels, and further contributions are welcome - be it as visitor, co-chef, accompanying and participating.

This project aims to bring together artists with no regard to country borders, in a hybrid format. We propose a continued creation of a chain-reaction-river connecting places, paths and stories across the globe. What started as a first encounter of artists of different disciplines co-creating and reacting to each other's works (see www.art-map.ch) goes into a second round.

We look forward to seeing you in Le Locle, at the very heart of watchmaking which causes us to reflect on a multitude of ways to measure - and most of all live! - the essential ingredient: Time...

See you there, on-site or virtual, for a cup of coffee or a full weekend!
